An Introduction to Chemistry by Mark Bishop. There are two versions of this current textbook, both containing the same information but organized differently: the "Chemistry-first" version begins with actual "chemistry" — that is, chemical equations and reactions.

General Chemistry: Starting Points for Students

The aim of this note is to create an in-depth awareness and develop full understanding of the concept of energy as the capacity for change in any chemical reaction and moreover that strong relationship between energy and structure of matter is the foundation of physical chemistry.
